

## FASTtag Tablet

*Mobile Test and Tag  
Solution built for  
serious professionals.*

The **FASTtag Tablet** combines the outstanding features of **FASTtag** Appliance Testing Software, with Motion Computing's durable, lightweight and powerful CL910 Tablet.

- Ultimate in portability
- Easy to use
- Full power of Microsoft Windows
- Touch or pen interface
- Long battery life
- FASTtag Printer and Tester Options
- Stay connected, your office in the field

### Durable from the Inside Out

The **FASTtag Tablet** is designed for the challenging conditions Test and Tag Professionals face every day and is far more durable than any other comparably priced tablet. Works in damp and dirty environments, water, dust and splash resistant.

### Mobile and Connected

Whether you are in the factory, working at heights or under a desk, the **FASTtag Tablet** is compact and light enough to take with you. Record all your results as you perform the test, making your job faster and easier.

With the optional internal mobile broadband, you can be constantly connected, providing you with a true portable office. The **FASTtag Tablet** allows you to run all of your other desktop software, like Microsoft Word and Outlook, so you can deal with an urgent quote or enquiry quickly while you are away from your base.

# FASTtag

### Pre-installed with FASTtag

Every **FASTtag Tablet** comes already installed with **FASTtag**; the complete package to manage your electrical test and tag—saving you time and keeping an accurate record of all tests. Designed specifically with a Tablet interface mode, **FASTtag** is easy to use and features fast data entry, re-test reminders and a complete test history. Rapidly enter new appliance descriptions with the hand-writing recognition tool. You can also add the Tag Printer Option to automatically print tags as you record tests, and the Tester Interface Option to instantly record the results direct from your PAT tester.

### Superior Display

The **FASTtag Tablet** display is as tough as it is brilliant. Equipped with Corning Gorilla Glass, the resilient display material renowned for its lightweight strength and durability, the **FASTtag Tablet** is the first 10-inch rugged tablet that enables both a touch and pen display.

### Ready to Work

The **FASTtag Tablet** comes out of the box, ready to work. Weighing just 1 kg, and with up to seven hours battery life, **FASTtag Tablet** helps you to work faster, smarter and more effectively, providing the mobile capabilities you need.

*The next generation in  
test and tag software*
